

## PART I - THE SCHEDULE

## SECTION B - SUPPLIES/SERVICES AND PRICE/COSTS

TABLE OF CONTENTS

## B.1 SCOPE OF CONTRACT

## B.2 CONTRACT LINE ITEM DESCRIPTION LIST

B.1 SCOPE OF CONTRACT

The Contractor shall furnish, as required, the hardware, software, and support services in accordance with Section C, STATEMENT OF NEED, and in conformance with the terms and conditions of this contract. This is a firm-fixed price contract.

B.2 CONTRACT LINE ITEM DESCRIPTION LIST

<u>CLIN</u>	<u>DESCRIPTION</u>	<u>QTY</u>	<u>UNIT</u>	<u>UNIT PRICE</u>	<u>TOTAL PRICE</u>
-------------	--------------------	------------	-------------	-------------------	--------------------

CLINs 0001, 0002, 0003, 0004, and 0005 inclusive are applicable to the Base Contract Period. The Base Contract Period commences on the date of contract award and concludes on [September 30, 2009](#), unless extended an additional year by exercise of optional CLIN 0005A. If CLIN 0005A is exercised, the Base Contract Period shall continue for a period of five (5) years from acceptance of the initially delivered system.

LOT I

0001	System Delivery and Installation	01	LT		
0002	High Performance Computing System(s) in accordance with Section C, Statement of Need, from date of system(s) acceptance through September 30, 2006	12	MO		

NOTE B - Offerors shall include with their price proposal, the interest rate used in calculating lease costs of equipment.

NOTE C – Submit Pricing Tables for various acquisition methods (e.g., LTOP, LWOP, Lease, etc.) proposed. Offerors are required to complete the Pricing Tables for only those methods of acquisition that are being proposed. For example, if an offeror is only proposing a lease method, the offeror is required to complete only a lease Pricing Table.

NOTE D - Offerors shall propose separate pricing for each year.

**NOTE E - The Government anticipates leasing the equipment during the systems life (both Base Contract Period and the Option Contract Period) with the exception of the Hierarchical Storage Management System which the Government will purchase during the Base Contract Period and the Option Contract Period, should the option be exercised.**

NOTE F - Section L contains the clause INVITATION TO PROPOSE FINANCING TERMS (FAR 52.232-31)(OCT 1995). For evaluation purposes, assume the following:

(1) Evaluation of financing proposals will be based upon October 1, 2005, as the first invoice payment and will continue for forty-eight (48) months. If monthly prices are adjusted because of system upgrade(s), offerors need to specify the month the adjustment occurs and the amount.

(2) In accordance with Federal Acquisition Regulation 32.205(c)(4) the time value of proposal specified contract financing arrangements shall be calculated using an interest rate of **3.9%** as specified in Appendix C to Office of Management and Budget (OMB) Circular No. A-94, "Benefit-Cost Analysis of Federal Programs; Guidelines and Discounts."

NOTE G - In preparing the cost proposal, Offerors should use [February 1, 2006](#), as the start of the systems life.

NOTE H - Furthermore, in addition to the items identified in Section B of this contract, the Government may, during the term of this contract, require goods and services not otherwise specifically identified, but within the scope of this contract. Should requirements arise, these additional goods and services will be negotiated under the Changes Clause of this contract.

NOTE I - For the purposes of proposing prices for optional workstreams under CLIN0010, assume that this option includes only the purchase of the computational portion of the resources necessary to run one additional instance of each workstream, consisting of the same architecture proposed to run that workstream, to be installed at the site where that workstream is proposed to run, and integrated with the existing system at that site. Should the system proposed to run that workstream change during the Base Contract Period (e.g., system upgrade), provide pricing for each. Include whatever power supplies, connectivity (e.g.; LAN), etc. would be necessary to make the computational resources functional (produce useful work). Do not include the cost of rent, power, cooling, or additional resources to store the results (SAN, tape, etc.), but do include any disk local to the resources (i.e.; scratch disk) that are required to execute the workstream, as well as any maintenance costs.

NOTE J - The purpose of CLIN 0001 is to provide a mechanism for acquiring services and equipment associated with the delivery of the initial system (FY2006) for Workstreams 7 through 9 prior to commencement of lease payments. These may include site preparation, engineering labor costs associated with data migration, etc.

NOTE K - A minimum of 7 years specialized experience is required for individuals proposed for CLIN 0011B, Systems/Network/Security Engineer, CLIN 0011C, Facility Engineer, and CLIN 0011D, Visualization/Data Engineer.
